

What Lies Ahead

After all that we've been through
Changing chapters, shifting views
No more excuses, no more lies
There's nothing more to compromise

Traveling miles and traveling days
Different steps along the way
Without a compass or a map
We're getting closer step by step

What lies ahead? Where do we go?
Today is yesterday's tomorrow
What lies ahead? How to move on?
Into the life where we belong

Far away from all the noise
Every day's another choice
No matter what's the circumstance
It seems there's nothing left to chance

Like puzzle pieces to connect
All the dreams we won't forget
Tryin' to see what really matters
Wishes we're chasing after

What lies ahead? Where do we go?
Today is yesterday's tomorrow
What lies ahead? How to move on?
Into the life where we belong

What lies ahead? Where do we go?
Today is yesterday's tomorrow
What lies ahead? How to move on?
Into the life where we belong

What lies ahead? What lies ahead?
What lies ahead? What lies ahead?
