

# The Family Tree

In this place where we grew up  
I've been searching for the key  
It seems that every door is shut  
Spirits are surrounding me

Unseen signs and untold truth  
This puzzle keeps me sleepless  
Fuzzy shadows of my youth  
I'm digging up the secrets

Everything we couldn't see  
Is hidden in the family tree  
In the family tree  
In the family tree

Through different generations  
Our lives are all affected  
All hopes and expectations  
The echoes are connected

Who am I and who are you?  
What has happened years ago?  
Same old picture, different view  
Memories I do not know

Everything we couldn't see  
Is hidden in the family tree  
In the family tree  
In the family tree

Hollow phrases, retold tales  
Images remain  
Our history repeats itself  
Time and time again  
Time and time again  
Time and time again  
Time and time again

Questions pulsing in our veins  
Parts of our DNA  
Minds and souls still tied with chains  
Answers seem so far away  
Our history repeats itself  
Time and time again  
Time and time again  
Time and time again  
Time and time again
